#### CONDITIONS OF SALE:

Every care is taken during the manufacture of this product. As no control can be exercised over storage, handling, mixing, application, use, weather, plant or soil conditions, no responsibility or liability for any failure in performance, losses, damage or injuries will be accepted under any circumstances whatsoever.

#### INSTRUCTIONS:

Ensure compliance with your quality assurance code of practice regarding the use of microbial products before use.

#### IMPORTANT:

**Shake bottle well before use.** Contains live organisms. Do not mix with fungicides/bactericides, toxic chemicals or soil fumigants. Sanitise spray tank before application. All microbial products should be added to the tank last after all other inputs have been diluted. Ideally, apply in the late afternoon. Do not exceed 60 psi. While handling and applying microbial products protective clothing, gloves and face masks should be worn. Wash hands after use.

#### STORAGE AND HANDLING:

Immuno-compromised persons (e.g. those undergoing chemotherapy) should not handle or be exposed to microbial products. While handling, brewing and applying microbial products protective clothing, gloves and face masks should be worn. Contains live organisms. Avoid aerosols generated by aeration. Store in cool, dry place away from sunlight and below 30°C (preferably under refrigeration). Use as soon as possible after opening but if this cannot be achieved then refrigerate remainder immediately after use and use within 3 months. Contamination of contents may occur at any time after opening and NTS takes no responsibility for opened product not used immediately. DO NOT FREEZE.
