

Molasses

pure black strap from sugar cane

An effective and available source of carbon energy and trace minerals to stimulate microorganisms in the soil that build greater nutrient levels.

feed and stimulate naturally

Molasses provides an effective and available source of carbon energy, minerals and trace minerals that feed and stimulate the growth of beneficial microorganisms in your soil that build and maintain higher levels of available nutrients in the soil.

Molasses also contains The nutrients contained in molasses are available for quick uptake by your plants, simply because they are derived from a plant.

application rates and guidelines

Add molasses to all your planting, foliar and soil conditioning solutions at a rate of 1-4 L/acre to provide a natural source of sugar and trace minerals.

Due to its biologically activating properties, do not leave a spray solution containing molasses in your sprayer for more than 8 hours or it could cause clogging of spray nozzles. Always clean your spray equipment thoroughly after each use.

safety, storage and handling

Keep away from direct sunlight. Store in temperatures above 6°C. For best results, let molasses warm up to 15°C before adding to tank. It is easier to mix if you dilute and blend molasses with warm water before adding it to the tank. Add to tank water that is at least 15°C. Agitate well before using. Molasses is compatible with many fertilizers, herbicides and pesticides. Always perform a jar test to ensure compatibility. For best results, spray in the morning and not in the heat of the day. Shake well before opening. **DO NOT STORE** or **SAVE** mixed solutions. Use all that you mix within 24 hours.

May cause skin irritation with prolonged exposure. Avoid contact with eyes.

This label is believed to be reliable and should be followed carefully. Injury to the treated crop may result from the occurrence of extraordinary or unusual weather conditions or the failure to follow the label directions or good application practices, all of which are beyond the control of Agriculture Solutions, Inc. or seller. Failure to follow label directions may cause injury to crops, animals, man or the environment. The Company warrants that this product conforms to the chemical description on the label and is reasonably fit for the referred purpose, subject to the factors noted above. The Company makes no other warranties or representations of any kind, express or implied, concerning the product, including no implied warranty of merchantability or fitness for any particular purpose, and no such warranty shall be implied by law.

The exclusive remedy against the Company for any cause of action relating to the handling or use of this product shall be limited to, at Agriculture Solutions' election, either a refund of the purchase price paid by buyer or user for product bought, or a replacement of the product used. To the extent allowed by law, the Company shall not be liable and any and all claims against the Company are waived for special, indirect, incidental, or consequential damages or expense of any nature, including, but not limited to, loss of profits or income. The Company and the seller offer this product and the buyer and user accept it, subject to the foregoing conditions of sale and limitation of warranty, liability and remedies.
